1.20 and are used to provide a visual or auditory enhancement of a game;

1.21 (6) paddlewheels, whether manually spun or electronic simulated paddlewheel
1.22 systems that control the random generation of winning numbers or symbols and devices
1.23 that accept player bet selections and transmit those selections to a central system that
1.24 determines which wagers have won or lost and how much the wins are awarded; and

1.25 (7) paddlewheel tables upon which wagers are made manually or electronically.

1.26 **EFFECTIVE DATE.** This section is effective the day following final enactment.

1.27 Sec. 2. Minnesota Statutes 2014, section 349.12, subdivision 28a, is amended to

1.28 Subd. 28a. **Paddle ticket.** "Paddle ticket" means a ~~preprinted ticket that can be~~

2.1 preprinted by a licensed manufacturer used to place wagers on the spin of a manually spun-
2.2 paddlewheel or a paper ticket printed by a board-approved and registered point of sale
2.3 system that is located at an approved site and used with an electronic simulated
2.4 paddlewheel that is not used with an electronic paddle table. Point of sale printed tickets
2.5 record and summarize all player's wagers for up to 10 consecutive spins. For electronic
2.6 paddlewheel systems not using a paddlewheel table, prizes are awarded to those presenting
2.7 original printed tickets with winning selections that match the electronically saved record
2.8 for the ticket presented. When used with an approved electronic paddlewheel table,
2.9 wherein all wagers and resulting payouts are electronically recorded, a paddle ticket may be
2.10 an electronic virtual image of a chip or ticket so long as the value of all chips or tickets in a
2.11 player's account are of the same value recorded prior to any of that player's chips being
2.12 placed into play. Upon quitting play a secured printed voucher would be provided for
2.13 redemption of outstanding balances owed from play on an electronic paddlewheel table.

2.14 **EFFECTIVE DATE.** This section is effective the day following final enactment.

2.15 Sec. 3. Minnesota Statutes 2014, section 349.12, subdivision 28b, is amended to read:

2.16 Subd. 28b. **Paddle ticket card.** "Paddle ticket card" means a card to which
2.17 detachable paddle tickets are attached used in conjunction with a manually spun
2.18 paddlewheel. Paddle tickets used with electronic wheels printed and recorded at the site by
2.19 an approved point of sale system or electronic paddle tickets or chips used with an
2.20 electronic table are not required to be used with or attached to a paddle ticket card.

2.21 **EFFECTIVE DATE.** This section is effective the day following final enactment.

2.22 Sec. 4. Minnesota Statutes 2014, section 349.12, subdivision 29, is amended to read:

2.25 spun, uses a pointer or marker to indicate winning chances, and may only be used to
2.26 determine a winning number or numbers, or symbol or symbols, matching a winning
2.27 paddle ticket purchased by a player. A paddlewheel may be an electronic device that
2.28 simulates a paddlewheel; including computers and software that control the random
2.29 outcome graphically displayed on an electronic simulated paddlewheel. An electronic
2.30 simulated paddlewheel may have up to three independent rings that simultaneously spin as
2.31 one spin event. No computer controlling the random outcome for more than one electronic
2.32 simulated paddlewheel shall activate or enable subsequent spins on any electronic simulated
2.33 paddlewheel of the same graphic style within three minutes of a previous spin except when
2.34 the computer is controlling the random outcome of electronic simulated paddlewheels used
2.35 with an approved electronic paddlewheel table. All paddlewheel tables must allow for at
2.36 least three simultaneous players. All paddlewheel tables must be operated by a person not
2.37 playing the game. The persons operating the tables shall determine when the table is
2.38 locked from further wagering and when a spin is called and when a table is open for

3.7 but not limited to, the manufacture, production, operation procedures, internal control
3.8 standards, posted information, records, and reports. (b) Before authorizing the lease
3.9 or sale of electronic simulated paddlewheels and electronic paddlewheel systems, the
3.10 board may examine electronic simulated paddlewheel and electronic paddlewheel systems,
3.11 including all associated devices. The board may contract for the examination of the
3.12 electronic simulated paddlewheel game systems and devices and may require a working
3.13 model to be transported to locations the board designates for testing, examination, and
3.14 analysis. The manufacturer must pay all costs of any testing, examination, analysis, and
3.15 transportation of the model. The system, and all particular games to be offered by the
3.16 system, must be approved by the board before it is used in the state and must have the
3.17 capability to permit the board to electronically monitor its operation and internal
3.18 accounting systems. (c) The board may require a manufacturer in paragraph (b) to submit
3.19 a certificate from an independent testing laboratory approved by the board to perform
3.20 testing services, stating that the equipment has been tested, analyzed, and meets the
3.21 standards required by applicable board rules. (d) The board, or the director if authorized
3.22 by the board, may require the deactivation of an electronic simulated paddlewheel for
3.23 violation of a law or rule and to implement any other controls deemed necessary to ensure
3.24 and maintain the integrity of electronic simulated paddlewheels, electronic paddlewheel
3.25 systems, and associated devices.
